

## We're relocating!

Tim and Victor are very happy to share with their patients the changes that are taking place at Avondale Dental and how these changes will improve their service to you.

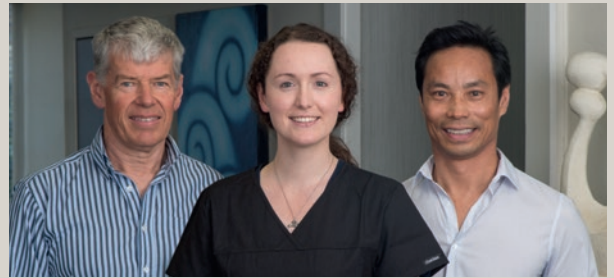

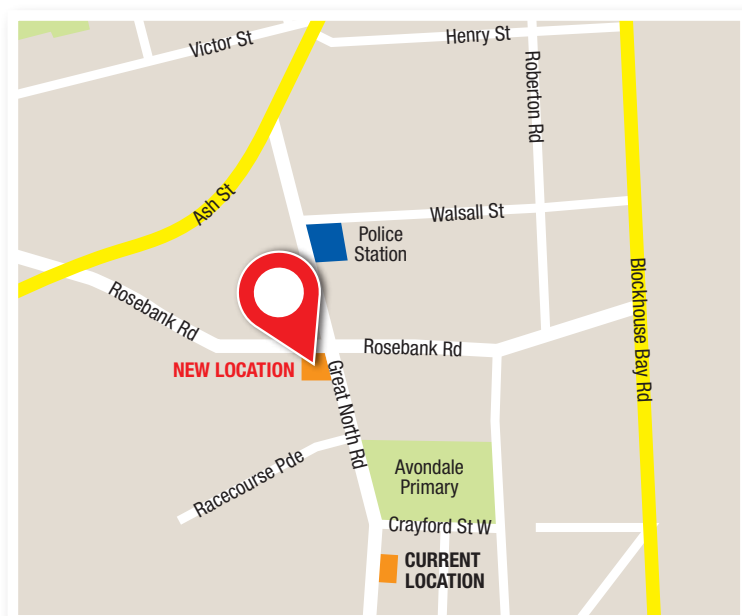

"Change for improvement and growth are part of who we are as professional dentists and how we operate Avondale Dental. Our aim is to always offer the best possible service to our patients and to care for our staff" are the words of both Tim and Victor, who are proud and pleased that this growth is occurring at the surgery. At Avondale Dental we have always provided our patients with the highest level of care and professionalism. An extensive range of services with state of the art equipment and sterilisation procedures are an integral part of our practice.

Our aim has always been to offer the best care at a reasonable price and to ensure that our service to patients is second to none. Part of the feedback that we have received over time has been on improving ease of access and the size of our surgery. Having given this careful consideration, and to accommodate the continued growth of the practice, we've decided to relocate. Our new premises are just 250 metres up the road in a single level building with easy street level access and additional space for services. We will still be located in the heart of Avondale town centre, an area which is also experiencing growth and development.

We have been caring for patients in Avondale for almost 40 years and would like to take this opportunity to thank you all very much for your support and know that you will enjoy visiting us at our new location. We welcome feedback and encourage you to share your thoughts with us on our new premises. Our service, standards and operations will continue, our dedicated staff will still be there, there will be some new faces to assist in your care, and you'll notice some other improvements to our great practice.

The proposed date for the relocation is January/February 2018, we will keep you posted on the schedule.

*Tim, Victor & Amy*

## Victor, Tim & Amy

Victor and Tim are the proud owners of Avondale Dental and Horizon Dental. We are dentists who go the extra mile for our patients. We have a team of highly trained professionals and we offer a wide range of dental services using only the best of equipment. Avondale Dental is a well known and highly reputable practice so with that in mind, and the changes that are taking place with the relocation, we are pleased to have Amy become a partner in the practice. When Amy joined the team in February 2015, we were very pleased to have secured the services of a highly skilled younger dentist who has achieved much in her career and with skills highly regarded by our industry. "Both Tim and I observed Amy's high level of skills, professionalism and practice to meet the high standards we set in the practice" says Victor, "That is what triggered both Tim and I to consider offering Amy a place as a partner and we could not be happier that she has accepted this offer."

## We have a new partner

The team are very proud to have Amy join as a partner. Amy is a highly skilled and professional dentist with a strong academic and hard working background. She was joint-Dux at high school and graduated from Otago University with first class honours and multiple prizes and scholarships such as the Gold Medal in Clinical Dentistry, Prize in Restorative Dentistry, and Harvey Brown Prize for Excellence.

These are impressive achievements as the QS World University Rankings by subject rank Otago University School of Dentistry 8th in the world, ahead of Harvard University. Along with her impressive resume, Amy has a wonderful, gentle personality and gets along well with our team.

Amy enjoys the continual learning needed for dentistry, as well as the artistic and surgical hand skills, and helping people take control of their oral health. She is a highly skilled, gentle and kind dentist.

Amy grew up in Thames on the Coromandel Peninsula. After graduating, Amy moved to Christchurch and worked as a Dental and Maxillofacial House Surgeon in Christchurch Hospital where she gained a great deal of extra surgical experience and knowledge.

We are excited and pleased that Amy is now a partner at Avondale Dental and thank her for accepting this position, please share with us in congratulating Amy.

## LASER WHITENING

Some people are satisfied with the results they get from brushing twice daily but this only removes surface staining from your teeth. Our revolutionary teeth whitening service is fast, effective, and safe. We can whiten your teeth in just over an hour and you will walk out of our practice smiling with whiter, brighter teeth!

International studies show that more people are now retaining their teeth for life and as people age so do their teeth. Years of coffee, cola, red wine, smoking and many other foods all contribute to the dulling and discolouration of your teeth. Whitening your teeth is one of the easiest things you can do to improve your appearance and give you more confidence in your every day life.

### WHAT CAN I EXPECT?

The procedure is simple and painless. You will be consulted by our dentist who will talk you through the procedure and discuss any concerns you may have. During this consultation, your dental health will be checked.

### HOW DOES IT WORK?

During whitening treatment a gel is applied directly on your teeth and a xenon-halogen light is used to activate the gel and brighten your smile. This painless, effective technique takes just over an hour to whiten your teeth to their optimum colour. The active ingredient is hydrogen peroxide, which is very effective in removing tooth discolouration. With all teeth whitening procedures you may experience some sensitivity but this should only last for a short time. Using Sensodyne toothpaste for a short period can also help. Included with your treatment is a take home bleaching kit for touch-ups and further whitening if desired.

## FREE TREATMENT

At Avondale Dental we provide free dental treatment for year 9 – year 13 students.

### Dr Tim Little Dentist (B.D.S. Otago)

Tim is a past president Auckland Dental Association and is active in the dental community, offering support as a mentor and expert advisor. He is now involved with the Dental Council and Health and Disability and is a foundation member of the New Zealand Academy of Cosmetic Dentistry.

### Dr Victor Young Dentist (B.D.S. Otago)

Victor graduated from the University of Otago in 1985 and has been a partner at Avondale Dental since 1990. He is an Auckland Dental Association Welfare Officer, helping his colleagues in times of need. Victor is also an Auckland Dental Association Mentor, assisting dentists with the business and clinical aspects of dentistry. He is a Foundation Member of the New Zealand Academy of Cosmetic Dentistry. He enjoys delivering high quality dentistry with a caring, personal approach to all his patients.
